- Teacher of mathematics and Swedish at Tjörns utbildningscenter, 2003—2005

Technical merits

Earlier OOP backend skills have been all but replaced by a semi-religious embracing of functional programming on the web stack. Focus used to be [Backbone](#) & [Underscore](#), now shifted to [React](#) & [ImmutableJS](#). Big on unit testing and code organisation. A selection of deeds:

- Major [Reflux contributor](#) 2015
- Creator of [Algebra Explorer](#) 2014
- [Backbone contributor](#) 2013
- Speaker about [CoffeeScript](#) at [Software Passion Summit](#) 2012
- Developer of [DBT Self help app](#) 2011
- Creator of [Tristania's official band app](#) 2010

References

- Principal at the Swedish Prison and Probation Service; [Lena Broo](#)
- Head of the Web programmer programme at Linnaeus University; [Johan Leitet](#)
- [Doug Crockford](#) said my CoffeeScript talk was excellent and that he agreed with everything I said. Merit or not...

Also

Singing, board games, LEGO and black metal! And travel, but mainly as an excuse for [photo bombing](#).
